CAREER OBJECTIVE

I build responsive web applications using JavaScript, React, HTML, and CSS, focusing on clean UI and usability. I have deployed real-world projects integrating third-party APIs and serverless functions. Currently improving my frontend skills while working toward becoming a Full Stack developer, with a growing interest in AI-powered web solutions.

EXPERIENCE

Freelance Web Developer

Self-employed | 2023 – Present

- Designed and developed responsive websites for small local businesses
- Focused on modern UI, mobile-first layouts, and user experience
- Managed full project lifecycle from design to deployment
